OCT
2020

Important Dates

October 12th - Thanksgiving

October 20th - Picture Day
NOTE DATE CHANGE

October 29th - Halloween Party
Come in your Costume!

NO TREATS PLEASE

HAPPY FALL EVERYONE!

It is hard to believe September is already behind us & we are well into October!

I think we were all a little bit unsure as to how September would go and I have to say I am so happy with our year so far. The children are adjusting to our school days so well and are falling into our daily routine. We could not have asked for better weather for the start of our school year. Please continue to send your child dressed for the weather - a toque or mini mitts can make a big difference to keep your little ones warm.

PICTURE DAY

**Our picture day is TUESDAY
OCTOBER 20TH!**

Louise from Academy Photo is coming to take our pictures on Tues. Oct. 20th - please note

date change! Due to Covid-19 restrictions, she will not be able to do a group shot but will be able to do individual pictures & will put together a collage type photo for the "group" picture. She will be masked & follow all Covid protocols, cleaning the photo station between students. Her pictures are 3/4 shots, meaning you will see part of the child's legs so she asked that I share that - probably so that you don't just brush their hair - it will be a little bit more than a head shot LOL. She also said darker colors photograph better than white or light colors. If parents are ok with it, I will also take an actual group picture with my good camera, hopefully outside if the weather permits.

HALLOWEEN PARTY

We will have a Halloween party on Thursday October 29th. The children can come in costumes & we will do special crafts and play games that day themed around Halloween. Usually we have a sign up sheet & have families bring in food & drink but this year we will **NOT** be bringing in shared food. We will just have snack as per usual.

DROP OFF/PICK UP

Please remember to coordinate with each other when you are parent helpers to see who will be at school at the beginning of our drop off time so that we can get kids to class smoothly. Thank U for your help with this transition!

I would also like to thank you for your continued support & for keeping your kids home when they are not feeling 100%. I really appreciate it as do all of our preschool families. It can be frustrating when our kids seem fine but are coughing or have a runny nose but it really is making a difference and we thank you!!

Mrs. Rheume
